Massive change can happen when Christians decide to act at the local level. This is happening now in Ottawa County, Michigan, where Christian men and women have been elected to seats on their county commission. Ottawa County has over 300,000 residents. These Christians advanced with diligence, forethought, organization, teamwork, and a heart of service towards God and man. In this video, they show that it is possible to influence great change; and this should give you HOPE that even if national and state politics are lost, you can still make a difference at the local level.

So far Ottawa County has abolished the DEI (Department of Equity and Inclusion), removed a tyrannical health director, cut back spending in unnecessary areas, and continues to cause no small stir for Christ! They are receiving massive backlash for doing so, so please reach out to them with your positive support.

Joe Moss: "There are certain things that you can't agree to disagree on. One of those is a single, unelected, unaccountable individual administrator making the daily decisions for 300,000 people in our county."
